

Metamorphosis Drawing

Metamorphosis: A change of the form or nature of a thing or person into a completely different one, by natural or supernatural means.

For this project, you will be creating a metamorphosis of your own. Stretch your imagination to think of two unlikely things (objects, animals, plants, etc.) that you can show gradually change from one form to another.

You can do this in as many steps as you would like, and you can choose the composition of your work. Think of different ways you can lay out your images on your page.

Be sure to shade or color in everything.
See examples below.
