

Recreate an Artwork

For this project, students are to recreate an artwork. This can be something famous, or even something less known. Have fun, think outside of the box, and stretch your imagination.

For example, you could get into character and dress up as the Mona Lisa, you could create a Van Gogh inspired landscape with clothes, scarves or other random materials, or even recreate your favorite album cover. Just snap a photo of your work.

Can't think of an artist or artwork?

Check out the link below to get inspired. This is just a “jumping off point” to help you kick-start your imagination. Feel free to choose any artist or artwork for your inspiration.
